

Special Transportation

Services

Unlike other Shipping companies that limit the type of good they transport, we have a service adapted to meet the shipping and transportation of special good such as live animals and pets (puppies,parrots,cats and more) to their destination . Thanks to our partnership with tertiary experts and our team that has made this possible.

We provide the services of UN certified packages, packing, Marking, labeling etc for all classes of haz cargo except class 7.

Customs House Brokerage Services In the global market place, rapidly changing demands on production and delivery schedules have placed increased responsibility on Customs House Brokers to provide expert Customs Clearance Services.

Other Customs Services include:

- Import / export customs clearance service at major ports around the world.
- *Assistance to new importers and exporters in registration and paperwork*
- *Proficiency in customs clearance under various customs incentive schemes*
- *Assistance in obtaining certificates*
- Customs evaluation of merchandise
- Import duty & tax assessment
- Import / export record maintenance
- Consultancy services
- Customs bonded carriage
- Transit customs handling

Live Animal Transportation

With Our Live Animal Transportation Services, we provides assistance to clients that need to relocate their pets anywhere in the world. When your animals are in our care, we treat them just as we would our own pets and are happy to provide referrals from many satisfied customers.

Whether you are emigrating or immigrating, relocating or holidaying, it is important that no family member gets left behind. Your animals are more than just animals; they are your family too, so it's crucial that you find the best animal transport service to get the animals from point A to point B. When it comes to choosing the right animal transport service for your cherished and furry family members, then make sure that you choose the most experienced and professional animal transport agency in South Africa

HOW We Do It ?

To begin with, we are experts when it comes to finding the safest, most direct route for your pets. We stay up to date on all import and transportation requirements for your pets. We have excellent relationships with the personnel at the airlines that run locally & globally. We are not simply “pet travel agents”.

It is our mission to assist those that need to relocate pets and animals in any way we can. If you decide to use our service to help relocate your pets, there is a good chance that we will come out and meet you and your pets before we have charged you a dime. We have found that it's better to know what size kennel your pet requires for transport by actually seeing your pet in the crate prior to the day of shipment! Of course, this isn't always necessary, but we want you to be comfortable with us when it's time to ship your pets. We want you to be confident that you have made the right choice and be assured that your pet will have the safest and most comfortable journey possible.

There are many companies out there that will help you relocate your pet from any origin to any destination. We work closely with many of them and often do pick ups and deliveries from door to door.

BE PREPARED

Having the appropriate paperwork ready ahead of time can reduce the stress and headaches that are often unnecessary.

- TRAVEL ITINERARY
- VACCINATION RECORDS
- COUNTRY OF ORIGIN CERT.
- HEALTH DEPT. RECORDS

We want you to be comfortable with us when it's time to ship your pets. We want you to be confident that you have made the right choice and be assured that your pet will have the safest and most comfortable journey possible.

Pet Transportation Service

We offer one of the most reliable pet transportation. We specialize in transporting, transferring and kennelling animals. We have perfected our service so that we offer your animal the care, love and attention that it deserves.

With our animal transport services we place your animals in the capable hands of our skilled and animal-conscious carers. Your animal's safety and wellbeing are assured from the moment they enter our charge to the moment you pick them up again either locally or abroad. The shock and anxiety that animals can experience through travel means that they must be

assured the best care at all times, and with us you can be certain that your animal will be treated as though it were right at home.
